

RAM

60 GALLON

RUBBERIZED ASPHALT MELTER

The RAM 60 Mobile is yet one more versatile way to bring rubberized asphalt materials to the point of application. With the same great features of the larger oil-jacketed transport units, the Ram 60 Mobile unit is able to reach areas the larger simply can't. Yet with the large BTU burner you can be dispensing asphalt in as little as 45 minutes.

Oil Jacketed Heat Transfer Design

100% temperature controls take the guesswork out of maintaining optimum material temperatures.

Gravity draw-off makes filling buckets a snap.

At only 33" wide the Ram 60 Mobile unit fits into tight areas and doorways.

360° full circle horizontal material agitation

Fully enclosed diesel burner

8.5 Kohler gas engine

5 gallon diesel tank

SPECIFICATIONS

Length.....87"
Width.....33"
Height.....72"
Weight Empty..... 1589 lbs.
Engine.....8.5 Kohler

Material Capacity.....60 Gal
Burner.....250,000 BTU
Temp. Controls.....100% Automatic
Heat Transfer Oil.....10 gals.
Diesel Fuel.....5 gals.

RAM

30 GALLON

RUBBERIZED ASPHALT MELTER

The RAM Melter line just expanded to give contractors even more flexibility in reaching hard to reach material application points on jobsites. Now with our new air-jacketed 30 Gallon Mobile Melter, getting into tight areas has never been easier.

30 Gallon Capacity

The 30 Gallon RAM Mobile Melter is an air-jacketed rubberized asphalt melter. Because rubberized asphalt materials melt at lower temperatures than conventional roofing asphalt, the flue unit is located underneath a material containment chamber. This chamber protects sensitive asphalt materials from the high BTU output burner which could scorch this material. The air chamber between the flue and material chamber offers efficient heat transfer with out direct material contact.

A hand-powered agitator allows the operator to move the material inside the tank with a sweeping action that eliminates hot-spots and keeps impurities suspended.

Hand Agitation

Gravity draw off

Lightweight and compact, this kettle is ideal for small patch jobs. It fits in the back of a pickup and elevators. The 30 Gallon RAM Mobile Melter runs on a LP vapor torch and includes a 15" LP hose and regulator, 2 1/2" draincock and thermometer.

SPECIFICATIONS

Length.....55"

Height.....43"

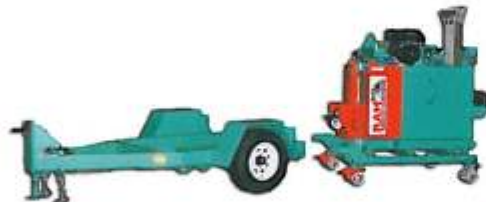

Width.....32"

Weight.....250 lbs.

For larger jobs be sure to check out our line of oil-jacketed RAM Transport Melters
