

NEW! ROLL-N-CHEK SEAMING TOOL

**SEAM ROLLER
AND EASILY CHECK SEAMS RIGHT AFTER SEAMING!**

**MADE IN
USA**

Patent
Pending

ERGONOMIC ROLLER FEATURES

Better Comfort: Ergonomic cushion grip handle gives you a larger, more comfortable gripping surface than a standard wood handle.

Better Clearance: Extended offset fork gives you 1" more clearance than the standard fork between the handle and the work surface to keep your fingers and hands further away from the heat source.

Better Viewing Area: Extended offset fork gives you 1" more view of the point of contact on the work surface than the standard fork.

SEAM TESTER FEATURES

Plated Steel Shaft: Firmly attached to handle, seam tester can be pressed firmly against newly rolled seams.

Shaped for Precision: Formed offset helps guide fingers to seam and seal joints in tight areas.

WITH SEAM TESTER LETS YOU

COMBO TOOL IS WELL BALANCED IN YOUR HAND LETTING YOU ROLL OUT SEAM AND IMMEDIATELY TEST WITHOUT ANY PICK UP AND PUT DOWN OF DIFFERENT TOOLS. ONE TOOL DOES MANY TASKS!

**Roll out seam
using ergonomic
roller and
hot-air gun.**

**Immediately
check seam
by running
tester along
seam edge.**

**Use flat end
of tester to
tamp down
T-joints.**

**Use blunted tip
of tester to
lift material
to seam
in tight areas.**
