

Years of Experience with Roofing Tools

Everhard Products has more than 30 years of experience in manufacturing seam rollers and other tools for the commercial rubber roofing markets -- TPO, EPDM, and other membrane materials. We have worked with and listened to roofing contractors in the field to provide the best common sense technology to get their jobs done.

Everhard was the first USA manufacturer to produce the silicone seam roller for membrane roofing. We are the only manufacturer to incorporate ergonomic improvements into our seam rollers by adding the cushion-grip handle and extended, offset fork options.

As a leader in roofing tool manufacturing, Everhard continues to help roofing contractors do their jobs easier using innovative manufacturing strategies to produce premium quality products.

Everhard Products, Inc. is registered to ISO 9001:2000.

Steel Seam Rollers

Polished steel rollers have single or double forks and enclosed bearings. Some models are available with cushion-grip handles, extended offset forks, and heavy duty bearings.

MODEL #	PRODUCT DESCRIPTION	WEIGHT (LBS)
Double Forks - 5" Wood Handle		
MR02020	1-1/2" dia. x 1-1/2" wide	0.906
MR02030	1-1/2" dia. x 2" wide	1.094
MR02040	2" dia. x 2" wide	1.813
MR02050	2" dia. x 2-1/2" wide	2.156
MR02080	2" dia. x 3" wide	2.680
MR02100	2" dia. x 4" wide	3.440
MR02110	2" dia. x 6" wide	4.880
Single Fork - 5" Wood Handle		
MR02250	1-1/2" dia. x 1-1/2" wide	0.875
MR02240	1-1/2" dia. x 2" wide	1.031
MR02140	2" dia. x 2" wide	1.750
MR02270	1-1/2" dia. x 1-1/2" wide, 1/4" radiused outside edge	0.844
MR02150	2" dia. x 2" wide, 1/2" radiused outside edge	1.688
MR02260	1-1/2" dia. x 2" wide, 1/4" radiused outside edge	1.000

Silicone Seam Rollers

Silicone rollers have single or double forks and enclosed bearings. Silicone withstands high heat -- ideal for use with hot air guns. Some models are available with cushion-grip handles, extended, offset forks, and heavy duty bearings.

MODEL #	PRODUCT DESCRIPTION	WEIGHT (LBS)
Roll-N-Chek™ Ergo Roller - Single Fork - 5" Cushion-Grip Handle with Seam Tester		
MR05032	NEW! Roll-N-Chek™ seam roller with built-in seam tester, 1-5/16" dia. x 1-3/4" wide roller, 3-1/2" plated steel seam tester	0.680
Ergonomic Roller - Single Fork - 5" Cushion-Grip Handle		
MR05029	1-5/16" dia. x 1-3/4" wide, single extended offset fork (right-handed)	0.563
MR05022	1-5/16" dia. x 1-3/4" wide, single extended offset fork (left-handed)	0.563
MR05028	1-5/16" dia. x 1-3/4" wide, single standard fork	0.563
Single Fork - 5" Wood Handle		
MR05020	1-5/16" dia. x 1-3/4" wide	0.520
MR05240	2" dia. x 2" wide	0.969
Double Forks - 5" Wood Handle		
MR05110	2" dia. x 4" wide	1.820

Heavy Membrane Rollers

Ideal for rolling out and setting membrane systems, eliminating bubbles, waves, folds, and crimps. Lighter models are good for field and sidelap areas with thinner membranes, while heavier model is best for pressure setting membrane adhesive. With three independently turning rollers, U-turns are easier. All three models have 60", removable, solid steel handles with grips. Model MR02470 is similar to MR02490, but has a 6" roller head with more rounded corners and a 48" solid steel handle with grips.

MODEL #	PRODUCT DESCRIPTION	WEIGHT (LBS)
Heavy Seam Roller, Steel - Heavy Duty Double Forks - 48" Steel Handle		
MR02490	Heavy steel membrane roller, 2-1/2" dia. x 18" wide	32.000
MR02495	Heavy steel membrane roller, 2-1/2" dia. x 12" wide	25.000
MR02500	Heavy steel membrane roller, 4-1/2" dia. x 15" wide	79.000
MR02470	Heavy steel membrane roller, 3-1/2" dia. x 6" wide	22.000

Ergo Features

Cushion-grip Handle

- Larger
- More comfortable
- Non-slip

Extended Offset Fork

- Better view of contact point
- Better clearance for knuckles
- Better protection from heat source

Standard roller with wood handle and standard single fork

Ergonomic roller with cushion-grip handle and standard single fork

Ergonomic roller with cushion-grip handle and extended offset fork

Convertible Seam Rollers

Hand rollers convert to stand-up rollers in seconds! 5-1/2" cushion-grip handle provides comfortable, no-slip grip -- perfect for hands-on work, when getting close to the work area or using more pressure on the work surface is important. The optional 60" fiberglass handle (sold separately) has a threaded steel tip that screws directly into the cushion-grip handle instantly creating a stand-up seam roller. Ideal for rolling out seams while standing, when less pressure is required. With the optional 60" handle, Everhard's convertible seam roller is two tools in one!

MODEL #	PRODUCT DESCRIPTION	WEIGHT (LBS)
Convertible Steel Roller - 5" Cushion-Grip Handle		
MR02130	2" dia. x 2" wide, single fork	2.420
MR02090	2" dia. x 4" wide, double forks	3.980
MR02170	2" dia. x 6" wide, double forks	5.460
Convertible Silicone Roller - 5" Cushion-Grip Handle		
MR05270	2" dia. x 2" wide, single fork	1.600
MR05260	2" dia. x 4" wide, double forks	2.420
Optional 60" Fiberglass Handle		
MR02400	60" fiberglass handle	1.031

Stand-up Seam Rollers

Stand-up rollers are best for finishing work and other seaming tasks while standing. 60" fiberglass handles screw directly into roller heads, which have heavy-duty double forks. Handles are replaceable and available with different sizes of steel or silicone rollers.

MODEL #	PRODUCT DESCRIPTION	WEIGHT (LBS)
Stand-Up Seam Roller, Steel - Double Forks - 60" Fiberglass Handle		
MR02350	2" dia. x 2" wide	1.800
MR02360	2" dia. x 3" wide	3.660
MR02370	2" dia. x 4" wide	4.400
MR02380	2" dia. x 6" wide	4.500
Stand-Up Seam Roller, Silicone - Double Forks - 60" Fiberglass Handle		
MR05120	2" dia. x 4" wide, fiberglass handle	2.506
Replacement 60" Fiberglass Handle		
MR02400	60" fiberglass replacement handle	1.031

Specialty Seam Rollers

"V" Rollers, nylon or aluminum, provide greater ease in seaming tight angles and performing intricate detail work. Roller hubs taper to a 5/64" rounded edge radius that won't cut membrane material.

Rounded Edge Steel Rollers are perfect for detail and flashing work where preventing membrane damage is top priority. The rounded edge allows for secure seaming yet is easy on the membrane.

Rollers are available with cushion-grip handle or extended, offset fork, or both.

MODEL #	PRODUCT DESCRIPTION	WEIGHT (LBS)
"V" Roller - Double Forks - 5" Wood Handle		
MR12540	2" dia. x 7/16" wide nylon roller, hub tapers to a 5/64" rounded edge	0.344
MR13500	2" dia. x 7/16" wide aluminum roller, hub tapers to a 5/64" rounded edge	0.380
Rounded Edge Steel Roller - Double Forks - 5" Wood Handle		
MR08500	2" dia. x 1/16" wide	0.344
MR08530	2-1/2" dia. x 1/8" wide	0.469
MR08580	2" dia. x 1/4" wide	0.438
