

Wheelbarrow

Built to last • Designed for the Roofing Contractor

Wheelbarrow shown with Garlock's gravel bucket. Works great with conveyor too.

Easy to maneuver over small narrow ramps

Garlock's two wheel contractor's wheelbarrow is designed for easy, low cost handling of gravel. Wheels are positioned to carry the load so that you don't have to. Dumps easily too, and won't damage roof. You'll like the way it handles, even when loaded to its full 6 cu.ft. capacity. Pneumatic 4-ply tires and heavy-duty roller bearings keep you rolling. We've also made the wheelbarrow tough, to stay on the job day after day, year after year.

Specifications

Capacity	6 cu.ft.
Weight	78 lbs.
Height	31"
Length	60"
Width	27"

Ask your Garlock dealer for a demonstration.
